**17 Pencantol
Frogpool, Truro
TR4 8SQ**

EDUCATION

TRURO COLLEGE
BSc Applied Computing Technologies,
1st Class Hons
2016 – 2019

UNIVERSITY OF EXETER
BSc Physics with Astrophysics,
2012 - 2015

ISABELLE MAY
FRONT-END WEB DEVELOPER

WORK EXPERIENCE

DEVELOPER, ULTRAFRAME LTD

(August 2024 – Present)
Working on a new internal application – both on its client interface and server – which lets employees view and edit data across multiple schemas, including orders and transport logistics, with a focus on usability by different personas.

FRONT END DEVELOPER, VANELLUS TECHNOLOGIES LTD

(February 2024 – April 2024)
A short-term contract in Cambridge with a novel tech start-up focused on improving fluid dynamics software using machine learning. Working with a small team that I knew from my Physics degree, I built as per spec I built a rudimentary web application to help engineers and scientists configure, run, and analyse fluid simulations.

FRONT END DEVELOPER, ROUTENOTE LTD

(August 2019 – February 2024)
A music distribution company based in Truro.

BROCHURE SITE
Updated RouteNote's brochure to a modern, responsive site with content ranging from simple text to bespoke animations & dynamic tables across dozens of pages.
Also localised the brochure for a Korean audience, with help, text translations, and advice from RouteNote's branch in Seoul.

USER PORTAL
Created a functioning component library for an out-of-house team (based in India) to build pages from. Components varied from buttons & links through form fields & menus up to containing frames – all built to receive and transmit information needed by the other team.

OTHER CONTRIBUTIONS
Blogs (Edited Wordpress themes to match branding.)
PUSH.FM (tweaked brochure page, dashboard & components)
User Portal v1 (a few individual pages)
RouteNote App (proof-of-concept for home page)
